Sector: Agriculture

NATIVE VEGETATION CLEARING

1 . Would a strategic approach to clearing, through a strategic purpose permit, benefit you?

Response: no
Comments:

2. Is the 'purpose component' reasonable to apply considering the added complexity of assessing this type of clearing permit?

Response: no
Comments:

3. Is the proposed fee structure fair and does it adequately reflect differences in the financial capacity of clearing permit applicants?

Response: no
Comments:

4. What is the likely impact on your business or industry of the proposed clearing fee structure?

Comments:
Depends on my Future in Agriculture.
excessively High cost

5. Additional comments regarding Native Vegetation Clearing not addressed in the questions above.

Comments:

WATER

6. Do you consider it reasonable for taxpayers to pay 100 per cent of the cost of assessing water licence and permit applications and if so, why?

Response: yes

Comments:

You are a government department and I pay Gst now and in the future.

You

post results for public use based on measurements taken by licence holders.

These results help develop government policy for all water users city based or country based,

Commercial users or Rural users.

7. If water licence and permit assessment fees were introduced, what do you consider to be an appropriate fee for a water licence or permit application?

Comments:

None,

8. Would you consider a risk-based model for determining water licence and permit application fees to be appropriate? If not, what basis could the department use to structure fees?

Response: no

Comments:

no incentive to reduce water use or to use it efficiently.

if fees are introduced water users might take the view it is easier to use Scheme water causing added

pressure on Government paid for schemes and putting pressure on town water supplies *9. What would

be the likely impact on your business or industry if water licence and permit fees were introduced?*

Comments:

Has me questioning whether to return to the family Farm as future income capabilities are diminished.

*10. If water licence and permit assessment fees were introduced, how could the collection of fees be timed to better support your business or industry?

For example, would you benefit from paying fees up front, at the end of a licence assessment or annualised over the term of the licence?*

Response: unsure

Comments

- I am sure I don't want any Fees **had to tick a box to submit *****

NO!!! to Fees. I want to provide Food for the Nation. Reduce the obesity

Burden on the Government by providing Fruits and Vegetables at reasonable prices .

I also want to Make a living and have a future on the Family Farm.

11 . Additional comments regarding Water licences and permits not addressed in the questions above.

Comments:

consultation process was not good these are very leading Questions and I just had to tick a box that I did

not want to but had to submit this application.
